

Stormwater Drain Stencilling

Request for permission

Stormwater drain stencilling helps the community understand and remember the connection between roadside drains and local waterways. Recognising this can alter behaviour and help reduce stormwater pollution.

Name of council for area to be stencilled		
Name of group/school intending to stencil drains		
Contact for group		
Stencilling area proposed: (description of area, street names etc)	(alternatively, photocopy pages from a street directory, mark the area and attach to this form)	
Proposed times/date(s) for stencilling activities		

Hints for council

- ◆ You may wish to suggest areas to the group that you feel may benefit from drain stencilling (eg commercial and industrial streets)
- ◆ If you provide the group with maps of the area they wish to stencil, the group can mark the drains stencilled and return to you for your records
- ◆ Please warn groups if there are areas that should be avoided or that you do not want stencilled
- ◆ It may help the group for you to provide any commentary on the catchment and where the stormwater outfalls for the stencilling area are
- ◆ Please alert the group to the existence of any catchment management plans or stormwater management plans for the area for educational purposes
- ◆ You may wish to advise Councillors and press to promote the activity
- ◆ Please phone or email the group's contact (above) to provide permission and to arrange handover of maps, advice, etc if required

**the DRAIN is
just for RAIN**
