

Wetland Wildlife Detective

Look, Record and Draw, **But Don't Collect!**

What types of animal you can see:

Birds:
Mammals:
Amphibians:
Reptiles:
Insects:
Other invertebrates:

Evidence of animals (signs, tracks, scats):

Evidence 1:	Evidence 2:	Evidence 3:
..... Where did you find it? Where did you find it? Where did you find it?
..... What animal did it come from? What animal did it come from? What animal did it come from?
..... Draw it: Draw it: Draw it:

Can you find:

	What is it?	Where does it occur?
Something that might be home to an animal		
Something that might be food for birds		
Something that stops waterflow into wetlands		
Something you have never seen before		
Something that was once alive		
Something that is impossible to count		
A plant that is not native (a weed)		
A living thing that doesn't move		
An unexpected type of litter
